FRONT END DEVELOPER

Front End Developer with a degree in Web and Multimedia Development from the Instituto Politécnico do Cávado e do Ave (IPCA), passionate about building user-centered digital experiences. During my internship at InflightIT, I worked on both the frontend and backend, contributing to scalable web applications using technologies like React, Next.js, and Node.js. I have a strong interest in digital transformation, accessibility, and performance optimization, always aiming to follow best practices such as clean code, reusable components, and intuitive UI/UX design. I'm proactive, collaborative, and results-driven, with excellent communication skills and a constant desire to grow. Fluent in Portuguese, with intermediate English proficiency.

TECHNICAL SUMMARY

Programming languages: Javascript and Typescript

DB: MySQL, PostgreSQL and MongoDB

Platforms: Windows

Technologies: RestFull API, Node.JS, React.Js, Next.Js, Server side Rendering, CSS, TailwindCSS, Styled Components, Material UI, HTML, Git, Github Actions, Agile / SCRUM methodology, Figma, Docker, Strapi, Postman
